Projects

Image Search - Image Downloader - Full HD images

Mar 2021 - Jul 2021 (4 months)

Company: / Android Army

<https://play.google.com/store/apps/details?id=com.androidarmy.imagedownloader>

Image Search - Image Downloader is a small and powerful Image Search tool that can be used to search, find and download any kind of image. With this Image Search - Image Downloader, you are just a single tap away from searching your images from across the globe.

How to use:

1. Tap on search top toolbar.
2. Enter any keyword into search view toolbar to search images.
3. Select the Image Size, Image Color and Image Type then click continues.
4. Select Image which you want to download.
5. You share the images with your friends and set as wallpaper in your device.

Features:

- Material Design
- Search Images
- Download Images
- Search History
- Share images with other apps such as Facebook, Instagram, etc.
- Set downloaded images as wallpaper to your device
- Search Filters(Content Type, Color, Size, Time)

Carprix

Company: SDSol Technologies

<https://play.google.com/store/apps/details?id=com.app.carprix&hl=en>

Tools: Android Studio, Java, XAML

CarPrix is a FREE car valuation app available for smartphones. CarPrix allows users to upload their vehicle's information and request quotes from friends, connections, and automotive professionals.

Features:

- Multimedia: Add photos, videos and audio notes to describe a car's condition.
- Connect with contacts: Ask them for quotes on your vehicle, chat with them, and answer any questions related to the car.
- No need for usernames or passwords: CarPrix will validate your phone number, send a verification code to access the app, and import your phone's address book.
- Get notified every time one of your contacts provides a quote on your vehicle.

- Share your location in order to get the most accurate quote for your car in your area.
- Search with your VIN and receive current market value for your car.
- Send broadcast request and receive quotes from dealership users.

Facelift cloud
